Re: Documentary Information Disclosure Policy Request

I request all available materials related to the Board discussions and decision concerning SSAC 045 and all available materials related to the implementation of Board decisions related to this SSAC advice; including the specific items discussed below.

SSAC 045, Nov 2010, recommended that the Application Guide Book (AGB) should include warnings to applicants about the possible issues they might encounter if certain names, including .corp and .home, were delegated. This DIDP request includes the following materials.:

1. ICANN Org (staff) briefing materials on SSAC 45 for the 10 December 2010 meeting that informed Board resolution (2010.12.10.22), which included:

Develop a mechanism to alert potential applicants for new gTLDs about the issues raised in SAC045.

2. Transcripts, minutes, rationale statements, and/or notes of the Board discussion on SSAC 045, including any advice or explanation of advice given by the Liaison to the Board from SSAC.

3. ICANN Org (staff) implementation plans for or reports on the mechanism required by Board Resolution (2010.12.10.22).

4. ICANN Org (staff) Board briefing materials on reasons why the required warning for Board Resolution (2010.12.10.12) was not included in the AGB.

5. Any other available materials related to either Board resolution (2010.12.10.12), the implementation of mechanisms in response to that resolution or any decision made regarding inclusion of a warning in the AGB.

Thank you

Avri Doria
