Re: Request No. 20170608-1

Thank you for your request for documentary information dated 6 June 2017 (Request), which was submitted through the Internet Corporation for Assigned Names and Numbers (ICANN) Documentary Information Disclosure Policy (DIDP) on behalf of Dot Registry LLC (Dot Registry) on 8 June 2017. For reference, a copy of your Request is attached to the email transmitting this Response.

Items Requested

Your Request seeks the disclosure of “any and all such information referencing or relating to Dot Registry’s community applications for .INC, .LLC, and/or .LLP used, produced, or contained in the CPE Process Review.”

Response

Community Priority Evaluation (CPE) is a method to resolve string contention for new gTLD applications. CPE occurs if a community application is both in contention and elects to pursue CPE. The evaluation is an independent analysis conducted by a panel from the CPE provider. The CPE panel’s role is to determine whether a community-based application fulfills the community priority criteria. (See Applicant Guidebook, § 4.2; *see also*, CPE webpage at <http://newgtlds.icann.org/en/applicants/cpe>.) As part of its process, the CPE provider reviews and scores a community applicant that has elected CPE against the following four criteria: Community Establishment; Nexus between Proposed String and Community; Registration Policies, and Community Endorsement. An application must score at least 14 out of 16 points to prevail in a community priority evaluation; a high bar because awarding priority eliminates all non-community applicants in the contention set as well as any other non-prevailing community applicants. (See *id.*)

At various times in the implementation of the New gTLD Program, the ICANN Board has considered aspects of the CPE process. Recently, the Board discussed certain concerns that some applicants have raised with the CPE process, including those that were identified in the Final Declaration from the Independent Review Process (IRP) proceeding initiated by Dot Registry. (See Dot Registry IRP Final Declaration at <https://www.icann.org/en/system/files/files/irp-dot-registry-final-declaration-redacted-29jul16-en.pdf>.) The Board decided it would like to have some additional information related to how the ICANN organization interacts with the CPE provider, and in particular with respect to the CPE provider’s CPE reports. On 17 September 2016, the Board

directed the President and CEO, or his designee(s), to undertake a review of the process by which the ICANN organization has interacted with the CPE provider (the Review). (See <https://www.icann.org/resources/board-material/resolutions-2016-09-17-en>.)

Further, as Chris Disspain, the Chair of the Board Governance Committee, stated in his [letter of 26 April 2017 to concerned parties](#), during its 18 October 2016 meeting, the BGC discussed potential next steps regarding the review of pending Reconsideration Requests pursuant to which some applicants are seeking reconsideration of CPE results. Among other things, the BGC noted that certain complainants have requested access to the documents that the CPE panels used to form their decisions and, in particular, the independent research that the panels conducted. The BGC decided, as part of the Review, to request from the CPE provider the materials and research relied upon by the CPE panels in making determinations with respect to certain pending CPEs to help inform the BGC's determinations regarding certain recommendations or pending Reconsideration Requests related to CPE. (See Letter from Chris Disspain to Concerned Parties, 26 April 2017, <https://www.icann.org/en/system/files/correspondence/disspain-letter-review-new-gtld-cpe-process-26apr17-en.pdf>; see also, Minutes of BGC 18 October 2016 Meeting, <https://www.icann.org/resources/board-material/minutes-bgc-2016-10-18-en>.)

As described in the [Community Priority Evaluation Process Review Update](#), dated 2 June 2017, the scope of the Review consists of: (1) review of the process by which the ICANN organization interacted with the CPE provider related to the CPE reports issued by the CPE provider; (2) review of the consistency in which the CPE criteria were applied; and (3) review of the research process undertaken by the CPE panels to form their decisions and compilation of the reference materials relied upon by the CPE panels to the extent such reference materials exist for the evaluations which are the subject of pending Reconsideration Requests.

The Review is being conducted in two parallel tracks by FTI Consulting Inc.'s (FTI) Global Risk and Investigations Practice (GRIP) and Technology Practice. The first track focuses on gathering information and materials from ICANN organization, including interviews and document collection. This work was completed in early March 2017. The second track focuses on gathering information and materials from the CPE provider. This work is still ongoing. Once the underlying information and data collection is complete, FTI anticipates that it will be able to inform ICANN of its findings within two weeks. (See [Community Priority Evaluation Process Review Update](#), dated 2 June 2017.)

Your Request seeks the disclosure of “all such information referencing or relating to Dot Registry’s community applications for .INC, .LLC, and/or .LLP used, produced, or contained in the CPE Process Review.”

As part of the first track of the Review, ICANN provided FTI with the following materials:

- Correspondence between the ICANN organization and the CPE provider regarding the evaluations, including any document and draft CPE reports that were exchanged.

With the exception of the correspondence between ICANN organization and the CPE provider regarding the evaluations, all materials provided to the evaluator are publicly available. Regarding the correspondence between ICANN organization and the CPE provider regarding the evaluations, including any document and draft CPE reports that were exchanged concerning the evaluation of Dot Registry's applications for .INC, .LLP, and .LLC, these documents were provided to Dot Registry in the IRP pursuant to the Panel's order regarding document production.

About DIDP

ICANN's DIDP is limited to requests for documentary information already in existence within ICANN that is not publicly available. In addition, the DIDP sets forth Defined Conditions of Nondisclosure. To review a copy of the DIDP, please see <http://www.icann.org/en/about/transparency/didp>. ICANN makes every effort to be as responsive as possible to the entirety of your Request. As part of its accountability and transparency commitments, ICANN continually strives to provide as much information to the community as is reasonable. We encourage you to sign up for an account at ICANN.org, through which you can receive daily updates regarding postings to the portions of ICANN's website that are of interest. We hope this information is helpful. If you have any further inquiries, please forward them to didp@icann.org.
